EXPERIENCE:

**Chief Technology Officer**

OvationTix

*2005 - Present*

OvationTix.com (a service of TheaterMania) is a richly featured box office event-ticketing platform processing over \$100 million per year through massively concurrent ecommerce, real-time reporting, and barcoded access control. I lead a team of twelve engineers, product specialists, QA staff, and support technicians. Our attention to performance optimization has enabled us to achieve a sustained throughput of over 1,000 orders completed per second.

**Chief Technology Officer**

TheaterMania

*2002 - Present*

TheaterMania.com is the Web's leading portal for theater news and information, with monthly traffic of over 1 million visitors, and a daily email volume of over half a million. My six-person team is responsible for all engineering, operations, and product design.

**Programming/Design Consultant**

*2001 - 2002*

Web- and print- based consulting work for companies including Vivendi Universal, iN DEMAND pay-per-view and Atlantic Records.

**Director of Development**

Goldcap Design

*1998 - 2001*

Led the company's expansion from a 2-person print design partnership to a developer of enterprise-level Web solutions with a staff of 15. Individually and as director of a team, produced information architecture, graphics, code, and database for large-scale B2B/B2C applications.
